Warranty

Guarantee conditions. You have a 18 months guarantee if any problems arise with your product. Return your product to us after which we will correct the problem as soon as possible or alternatively send you a new product.
Please understand that you will be responsible for any defect which associate which your own battery. Thanks for your understanding.
Never try to open a torch, this will break the seal and void the warranty. For parts or repair enquiries please contact us.

Maintenance

Check the tailcap O-ring every time when you close it, remove any sand or dirt. Cleaning after diving.
Rinse the torch immediately with fresh water to remove any salt crystals, sand or dirt and dry thoroughly. Ideally rinse the torch in fresh water whilst it is still wet from your dive, to prevent dirt drying onto the light or the O-ring seal. If the end-cap are jammed due to salt deposit simply soak in fresh, clean, warm water for approximately an hour, do not force these parts. Regular lubrication of the screw thread, gasket and end-cap O-ring seal is recommended. Use only silicon based grease or oil.
Charging after diving.
It is very important that the torch is rinsed in fresh water and dried thoroughly (air or blow dried) before charging.

If water gets inside, remove the battery immediately and dry, put the battery in an area with good ventilation. Warranty for defective items (excluding man made damaged and/or misused after receipt).
